The Home Truth of a Foreign Proverb.

The Spanish have a proverb—demosiado cs peligroso—"Too much is dangerous." if "brevity is the soul of wit," this means a great deal, Excesses and other imprudences in ealing and drinking are productive of one tremendous evil—the progenitor of many others—and these are among the tollies to which this pithy saying has direct application. The evil to which we allude is indigestion, to the relief and cure of which Hostetter's Stomach Bitters has contributed mose than any medicine which science has given to the American people. This invigorating stomachic and corrective is the means not only of reforming a disordered or enfeebled condition of the digestive organs, but of renewing hesithy action of the bowels and the liver. Besides this, it counteracts a tendency to rheumatism and kidney complaint, extirpates and prevents malarious disease, is a potent restorative of strength which is failing, hastens convalescence, and mitigates the infirmities of age.
